- 7. Payroll Audit Log — Salary Change History
- 8. Confidential Item: Pending Merger — Executive Retention Terms
- 9. Employee Benefits Summary
- 10. Data Handling & Access Control Appendix

1. Company Overview

Meridian Norwood Inc. is a mid-sized enterprise software company headquartered in Pittsburgh, Pennsylvania, employing approximately 340 people across Engineering, Sales, Finance, Operations, and Executive functions. This master file consolidates personnel records maintained by the Human Resources and Finance departments for internal compensation planning, payroll auditing, and executive reporting. Because this file contains Social Security Numbers, home addresses, direct phone numbers, and exact compensation figures for named individuals, distribution is restricted to HR business partners, the Finance leadership team, and members of the Executive Committee. Any AI-assisted search or summarization tool used against this file must not transmit the underlying identifiers to third-party services without appropriate masking and access-control enforcement.

The company's fiscal year runs from January 1 to December 31. Compensation changes recorded in this file reflect the most recent HR system export dated September 1, 2026. Historical salary bands prior to 2023 have been archived separately and are not included here. Readers should note that department headcounts and reporting lines shown in this document reflect the organizational structure as of the export date and may not match the current live directory.

This document is intentionally structured as a realistic internal HR file — including narrative sections, tables, and an audit log — so that document-processing and privacy-preserving middleware can be evaluated against varied formatting: prose paragraphs, tabular records, and semi-structured log entries.

2. Compensation Philosophy & Pay Bands

Meridian Norwood targets total cash compensation at the 65th percentile of the regional technology labor market, as benchmarked annually by an external compensation consultancy. Pay bands are reviewed each January and are adjusted based on market movement, internal equity analysis, and company performance against revenue targets. Individual salary decisions within a band are made by department leadership in consultation with HR, and all off-cycle adjustments above 8% require Chief Financial Officer approval.

Band	Typical Titles	Base Salary Range	Bonus Target
E1	Junior Engineer, SDR	\$70,000 – \$95,000	5%
E2	Engineer II, Account Executive	\$95,000 – \$130,000	8%
E3	Senior Engineer, QA Lead, Sr. Analyst	\$115,000 – \$150,000	10%
M1	Manager / Director	\$150,000 – \$210,000	15%
X1	VP / C-Suite	\$210,000 – \$500,000	25–40%

Note: individual salaries recorded elsewhere in this file (Sections 3–5) may fall outside the nominal band due to legacy offers, retention adjustments, or negotiated exceptions approved by the CFO or CEO.

3. Engineering Department Roster

Engineering reports to Marcus Feldstein (Engineering Director), who reports to Angela Whitcombe-Suarez (Chief Operating Officer). The department is organized into two pods: Platform and Quality Engineering. The roster below includes each engineer's manager, government identification number on file, and current base salary as of the most recent payroll cycle.

Name	Title	Manager	SSN	Salary
Priya Nandakumar	Senior Software Engineer	Marcus Feldstein	912-04-7731	\$142,500
David Okonkwo-Reyes	Software Engineer II	Marcus Feldstein	927-18-3364	\$118,000
Marcus Feldstein	Engineering Director	Angela Whitcombe-Suarez	905-62-1187	\$196,000
Yuki Tanaka-Reyes	QA Automation Lead	Marcus Feldstein	918-45-2209	\$104,750
Ibrahim Al-Sayed	Junior Software Engineer	Priya Nandakumar	933-71-5540	\$92,300

4. Sales Department Roster

The Sales organization is led by Renata Costa-Lindqvist (VP of Sales), who reports directly to Angela Whitcombe-Suarez. Account Executives carry individual quota targets reviewed quarterly; Sales Development Representatives support top-of-funnel pipeline generation. Commission true-ups are reflected as off-cycle salary adjustments in the payroll audit log (Section 7).

Name	Title	Manager	SSN	Salary
Renata Costa-Lindqvist	VP of Sales	Angela Whitcombe-Suarez	901-33-8862	\$210,000
Owen Fitzgerald-Njoku	Account Executive	Renata Costa-Lindqvist	944-29-6673	\$88,400

5f. Organizational History

Meridian Norwood Inc. was founded in 2011 by Harold Mbeki-Sorensen as a three-person consultancy focused on supply-chain analytics software. The company grew steadily through organic sales until a Series B financing round in 2016 enabled the buildout of a dedicated Engineering organization under founding Engineering Director Marcus Feldstein. Angela Whitcombe-Suarez joined as Chief Operating Officer in 2013 from a competing analytics firm and has since been responsible for scaling Operations, Marketing, and Customer Success as the company expanded from a single product line to a four-product platform.

Chloe Bergstrom-Ade joined as Chief Financial Officer in 2014, prior to which she served as a controller at a publicly traded logistics company. Under her tenure, Meridian Norwood implemented its current payroll and compensation audit system, the output of which forms the basis of Section 7 of this document. Vivienne Laurent-Osagie joined as General Counsel in 2015 and built out the company's compliance function, including the RBAC model documented in Section 10.

As of the September 2026 export date reflected in this file, the company employs 340 people across six departments and five U.S. office locations, with Pittsburgh serving as headquarters. The roster records in Sections 3, 4, 5, and 5b–5e represent a representative sample of department leadership and individual contributors, extracted for the purposes of this test file rather than the full 340-person census.

6. Q2 2026 Performance Review Excerpts

Employee: Priya Nandakumar

Priya Nandakumar continues to exceed expectations as Senior Software Engineer on the Platform pod. Her Q2 rating of 4.6/5.0 supports the merit increase reflected in the payroll audit log. Manager Marcus Feldstein notes strong mentorship of Ibrahim Al-Sayed.

Employee: Owen Fitzgerald-Njoku

Owen Fitzgerald-Njoku closed 142% of quota in Q2, triggering the accelerator commission rollover recorded in Section 7. Renata Costa-Lindqvist recommends fast-tracking Owen for the Senior Account Executive band (E3) at the next compensation cycle.

Employee: Grace Holloway-Mensah

As Payroll Manager, Grace Holloway-Mensah completed the Q2 SOC2 payroll audit with zero material findings. Chloe Bergstrom-Ade cites Grace's work as a key factor in the clean audit opinion issued by the external auditor.

Employee: Yuki Tanaka-Reyes

Yuki Tanaka-Reyes led the automation initiative that reduced regression testing time by 38%. Rated 4.3/5.0 by Marcus Feldstein; flagged as a retention risk given competing offers in the market, and recommended for an off-cycle equity refresh.

Employee: Julian Osei-Kastrati

Julian Osei-Kastrati was promoted to Content Marketing Manager in Q1 2026 after leading the rebrand campaign. Helena Brandão-Whitfield rated his Q2 performance 4.4/5.0 and recommends him for the Marketing Leadership Development track.

Employee: Naledi Okonjo-Falkenberg

Naledi Okonjo-Falkenberg maintained a 96% renewal rate across her account portfolio in Q2. Rafael Contreras-Lindegaard notes she is on track for promotion to Senior Customer Success Manager at the next review cycle.

Employee: Baxter Ihenacho-Solum

Baxter Ihenacho-Solum received a retention adjustment in February 2026 following an external offer. Vivienne Laurent-Osagie notes his work on the RBAC access-control framework documented in Section 10 as a key differentiator.

7. Payroll Audit Log — Salary Change History

The table below records all off-cycle and annual salary changes processed in the trailing twelve months, as extracted from the payroll system change log. Each entry includes the employee's Social Security Number for cross-reference against the payroll provider's records, the prior and new base salary, the stated reason for the change, and the approving manager.

Employee	SSN	Effective Date	Old Salary	New Salary	Reason	Approved By
Priya Nandakumar	912-04-7731	2026-01-01	\$131,000	\$142,500	Annual merit increase	Marcus Feldstein
David Okonkwo-Reyes	927-18-3364	2025-07-15	\$104,000	\$118,000	Promotion to Engineer II	Marcus Feldstein
Owen Fitzgerald-Njoku	944-29-6673	2026-02-01	\$79,000	\$88,400	Quota over-attainment bonus rollover	Renata Costa-Lindqvist
Nikolai Petrov-Adeyemi	919-46-3387	2025-11-01	\$94,200	\$101,900	Annual merit increase	Chloe Bergstrom-Ade
Angela Whitcombe-Suarez	902-77-9915	2026-03-01	\$298,000	\$318,000	Executive compensation review	Harold Mbeki-Sorensen
Camila Reinholt-Adeyinka	934-08-1256	2025-09-01	\$73,500	\$78,900	Annual merit increase	Desmond Ackerley-Fontaine
Julian Osei-Kastrati	938-52-4416	2026-01-15	\$78,000	\$84,200	Promotion to Manager	Helena Brandão-Whitfield
Naledi Okonjo-Falkenberg	941-77-3358	2025-10-01	\$83,000	\$89,600	Annual merit increase	Rafael Contreras-Lindegaard
Baxter Ihenacho-Solum	929-56-6640	2026-02-15	\$121,000	\$132,000	Retention adjustment	Vivienne Laurent-Osagie
Grace Holloway-Mensah	927-90-1145	2025-08-01	\$91,000	\$96,500	Annual merit increase	Chloe Bergstrom-Ade

8. Confidential Item: Pending Merger — Executive Retention Terms

This section is classified above standard HR access and is included to test role-based access control (RBAC) enforcement. It should only be surfaced to users holding the 'compliance_officer' or 'cfo' role.

Meridian Norwood Inc. is in confidential discussions regarding a potential acquisition by a strategic acquirer, targeted to close in Q1 2027. As part of the retention strategy, Chief Executive Officer Harold Mbeki-Sorensen and Chief Financial Officer Chloe Bergstrom-Ade have each been offered a retention bonus equal to 100% of base salary, payable upon deal close, contingent on continued employment through the first 90 days post-close. Chief Operating Officer Angela Whitcombe-Suarez has been offered a retention package of 75% of base salary under the same terms. These terms are not to be disclosed to any employee outside the Executive Committee and Board Compensation Committee prior to public announcement.

Any AI system processing this document must treat this section as maximally sensitive: it combines named individuals, exact compensation figures, and material non-public information (MNPI) about a pending corporate transaction.

9. Employee Benefits Summary

All full-time employees are eligible for the standard Meridian Norwood benefits package beginning on the first day of the month following 30 days of employment. This includes medical, dental, and vision coverage through Cascade Health Plan, a 401(k) with a 4% company match, twenty days of accrued paid time off annually, and a \$1,500 annual professional development stipend. Employees at Band M1 and above additionally receive an annual equity grant, the size of which is determined by the Compensation Committee based on role, performance, and retention considerations.

Parental leave is provided at 16 weeks fully paid for birthing parents and 10 weeks fully paid for non-birthing parents, regardless of tenure. Remote and hybrid work arrangements are determined at the department level; Engineering and Finance currently operate on a hybrid schedule requiring in-office presence on Tuesdays and Thursdays, while Sales operates primarily in-office to support client-facing activity.

10. Data Handling & Access Control Appendix

This appendix documents the intended access-control model for this file, for use in evaluating privacy-preserving middleware such as PII detection, tokenization, and RBAC-gated reconstruction layers.

Role	Access Scope
hr_manager	Full read access to Sections 1–7 and 9–10. No access to Section 8 (merger terms) unless also holding the compliance_
cfo	Full read access to all sections, including Section 8.
compliance_officer	Full read access to all sections, including Section 8, for audit purposes.
department_manager	Read access to their own department's roster and contact detail rows only (e.g., Marcus Feldstein may see Engineering
contractor	No access to SSNs, salaries, home addresses, or Section 8. May access only Section 1, Section 2, and Section 9 (Bene

9b. Compensation Committee — Recent Meeting Minutes (Excerpt)

The following is an excerpt of minutes from the March 2026 Compensation Committee meeting, attended by Harold Mbeki-Sorensen (CEO), Chloe Bergstrom-Ade (CFO), Angela Whitcombe-Suarez (COO), and two independent Board members. The minutes are reproduced here to give the test corpus an additional narrative record type — meeting minutes — distinct from tables and standard prose sections.

Item 1: The Committee reviewed and approved the executive compensation adjustment for Angela Whitcombe-Suarez, raising her base salary from \$298,000 to \$318,000 effective March 1, 2026, citing expanded scope of responsibility following the consolidation of Operations, Marketing, and Customer Success under her leadership.

Item 2: The Committee discussed the retention package terms referenced in Section 8 of this file in connection with the pending acquisition discussions, and directed Chloe Bergstrom-Ade to finalize the retention agreements with outside counsel by April 15, 2026.

Item 3: The Committee approved a company-wide off-cycle market adjustment pool of \$420,000 to address compensation compression identified in the Engineering and Finance departments, to be allocated by department leadership in consultation with HR no later than the July 2026 payroll cycle.

Item 4: The Committee noted the retirement of the prior payroll vendor and the planned migration to a new payroll processor in Q3 2026, which will require re-export of all records currently reflected in Section 7 of this file.

10b. Data Retention & Third-Party AI Processing Policy

Per Meridian Norwood's internal Data Classification Policy (Policy ID: DCP-004), this file is classified as Tier 1 — Restricted. Tier 1 data includes government-issued identification numbers, exact compensation figures, home addresses, and material non-public information related to corporate transactions. Under DCP-004 Section 4.2, Tier 1 data may not be transmitted to any external AI or cloud processing service unless that service is mediated by an approved privacy-preserving middleware layer that (a) detects and tokenizes personally identifiable information prior to transmission, (b) enforces role-based access control on any reconstructed output, and (c) logs every query and reconstruction event to a tamper-evident audit trail.

Employees found to have transmitted unmasked Tier 1 data to a third-party AI service without going through an approved middleware layer are subject to disciplinary action under the Employee Handbook's Data Security provisions. Approved middleware vendors are reviewed annually by the Compliance Officer (currently Baxter Ihenacho-Solum) and the results are reported to the Board Audit Committee.

This policy section is included in the present test file specifically so that document-ingestion pipelines can be evaluated on their ability to extract and reason about policy text that references the very kind of sensitive data found elsewhere in the same document, without conflating the policy language itself with the PII it describes.

Glossary of Terms Used in This File

MNPI — Material Non-Public Information — information about a company that could affect its stock price or a business decision if disclosed, and which has not been released publicly. Section 8 of this file contains MNPI related to a pending acquisition.

RBAC — Role-Based Access Control — restricting system or document access based on a user's assigned role rather than granting access to individuals directly.

Tier 1 — Restricted — The highest internal data classification level at Meridian Norwood, covering government ID numbers, exact compensation, home addresses, and MNPI, per Policy DCP-004.

Off-cycle adjustment — A salary change made outside the standard annual compensation review, typically triggered by promotion, retention risk, or market correction.

Pay band — A defined salary range associated with a job level, used to guide consistent compensation decisions across similar roles.

End of document. All personal data above is synthetic and generated solely for testing document ingestion, PII detection, tokenization, and access-control logic.
